

SG Firewall Hardware Refresh Offer

Future-proof your firewall!

Enjoy a one-off saving when you refresh your Sophos UTM or SG Series appliance with a new SG Series model of the same or higher type.

Here are some of the great reasons to move to a new SG Series appliance:

- ▶ **Outstanding performance**
Optimized use of multi-core processors and faster than ever firewall, IPS and VPN throughput.
- ▶ **Flexible configuration options**
Flexi Port LAN modules let you select the connectivity you need – copper, fiber or 10GbE.
- ▶ **Full wireless coverage**
The SG 100 Series desktop range includes models with integrated wireless, letting you simply deploy secure wireless.
- ▶ **Switch to Sophos XG Firewall**
Whenever you're ready you can turn your SG appliance into an [XG Firewall](#)* by migrating from UTM 9.X to our all-new SF-OS firmware.

Please note that the saving is calculated based on the model of the appliance that is being traded in, **NOT** the model of the new appliance.

Offer valid to 30th June 2018.

How it works

1. Place an order with your Sophos partner quoting the serial number of the appliance you are trading in.
2. Transfer the license from your old to your new hardware. If you are moving to a higher type model or from a non-SG Series appliance first you need to upgrade the license to the new model type via MyUTM.
3. Stop using the old appliance [no need to return it].

For more information please contact your Sophos partner.

* Please contact your Sophos partner or local sales contact to find out more about migration options.

SG Firewall Hardware Refresh Offer

Terms and Conditions

- This offer is available for current customers with Sophos ASG, UTM and SG hardware appliance models only.
- Customers can use the bonus to upgrade to a Sophos SG appliance only.
- Customer must:
 - (i) be the original purchaser of the hardware appliance, and
 - (ii) have a current Sophos software subscription for such hardware.
- Customer must provide the serial number of the hardware appliance being traded in when placing the order.
- Upon receiving the new appliance, the customer must stop using the old appliance, but does not need to return it.
- Once purchased, customers must transfer their license from the old to the new appliance. In doing so, technical support will also be transferred to the new appliance.
- Saving is only available when moving to a model of the same or higher type – for example, from a UTM 320 to a SG 330. It is not available when moving to a lower type (e.g., from a UTM 320 to a SG 310).
- Offer is valid through 30th June 2018.
- Offer is available only through participating resellers.
- Offer is at Sophos' discretion and can be withdrawn at any time.
- Offer is void where prohibited by law, and is subject to all applicable laws and regulations.
- This offer cannot be used in combination with any other promotion offering a discount on the purchase of an SG or XG Series hardware appliance.
